STATE	WAR	NAVY	JUSTICE						

1. Repair work on Gdynia harbor is proceeding very slowly. The clearing of the harbor area of mines is being undertaken by the Russians. Immediately after the liberation a certain amount of work was done, but this has not been continued up to the present time. The south basin is still blocked by mines and wreckage, and it is only possible for small wooden boats, e.g. fishing cutters, to enter.

2. The harbor control is ostensibly Polish, but in actual fact the orders are issued by the Russian authorities.

3. The Polish naval workshops in Gdynia are working to full capacity; workmen employed here state that output is larger than pre-war. Of what this output consists is not known.

4. Polish naval ratings in Gdynia are being overheard to say that they expect soon to be drafted to nineteen small ships, probably mine-sweepers, due to arrive from the USSR in the near future.

50X1-HUM

5. The Obuze barracks in Gdynia are occupied by Russian naval ratings.
